

# The Bull SCOOP SHOVEL

**Indestructible  
Poly D-Grip  
Handle  
with  
Car-Bumper  
Strength**

Mfg. # here?

Heavy duty  
aluminum alloy  
**With stainless  
steel tip**

## Super Duty Flexible Aluminum Alloy Scoop

**8 Times Stronger and More Flexible  
25% More Wear-Resistant (.125 Thickness)**

### The Bull Features:

- Over 1 year in testing and development
- Back-saving handle design
- Limited lifetime warranty
- Made in Lancaster County, PA, USA

<b>THE BULL</b>	.125 THICKNESS
<b>OTHERS</b>	.101 THICKNESS
<u>8X MORE FLEXIBLE THAN OTHER NATIONAL BRANDS!*</u>	
<b>THE BULL</b>	
<b>OTHERS</b>	

\*Using 725 lb. compression test

### 14x30 SS Bull Scoop Shovel With Stainless Steel Wear Strip

Mfg. #14305	UPC # 7-49644-14305-5	
Weight 6.125 lbs.	Length 49"	Width 15"

### 14x36 SS Bull Scoop Shovel With Stainless Steel Wear Strip

Mfg. #14365	UPC # 7-49644-14365-9	
Weight 6.25 lbs.	Length 53"	Width 15"

### 14x40 SS Bull Scoop Shovel With Stainless Steel Wear Strip

Mfg. #14405	UPC # 7-49644-14405-6	
Weight 6.37 lbs.	Length 57"	Width 15"

*These pictures are examples of the shovels at the first failure levels*

**The flex test** was done in a machine shop on a mechanical metal press. Each shovel was forced to "flex" under 725 lbs. of pressure from its normal form onto a 4.5" opening repeatedly until a crack developed in the shovel. The number of times the shovel "flexed" before developing a crack was recorded. The process was then continued until the shovel reached total failure (the crack grew until the shovel was useless). This point was recorded as well.

- At a 4.75 inch opening, the Bull Scoop shovel went 11,000 repetitions, then 60,000 repetitions at a 4.5 inch opening before a crack developed.
- The national brand leader of scoop shovels broke at 1400 repetitions.
- The Bull Scoop was 40 times more flexible than any of the national brands.
- There is no shovel close to this quality on the market today.
- The Bull Scoop with the stainless wear strip lasted over 10 times longer than the standard shovel.
- The practically indestructible poly D-grip handle is made of the same material used to make car bumpers.
